

STOLZ ENGINEERING DELIVERS SERVICE EXCELLENCE WITH PRIDE

STOLZ Engineering was recently honoured with the Singapore Prestige Brand Award - Promising Brand 2010, a clear testimony to a brand success rooted in service excellence in the construction industry

Recognised as one of the Most Promising Brands in the eminent Singapore Prestige Brand Awards 2010 reflects STOLZ as the sole representative of the engineering industry. The award defines the brand of STOLZ not only in the engineering sector, but also amongst SMEs.

Consistently setting the benchmark for the industry, STOLZ Engineering takes great pride in advocating and delivering excellent service.

The key to its prompt and responsive service lies in a dynamic maintenance in-house team that is on standby 24/7. Customers can rest assured that service is rendered with minimum response time, production lines are operation-ready and any downtime is minimised.

Mr. Mark Tan, Managing Director of STOLZ Engineering was also awarded the Top Ten Entrepreneurs in the prestigious ROTARY-ASME Entrepreneur of the Year Award 2010. The accolade pays homage to local entrepreneurs who have demonstrated excellence in their field of expertise, while saluting outstanding local entrepreneurs who have shown exceptional leadership qualities.

The company's relentless pursuit in providing unparalleled service standards has seen STOLZ achieving ISO 18001, ISO 14001, ISO 9001 and BizSafe STAR certifications. Each certification testifies to the fact that the company surpasses the minimum standards set by the authorities and industries.

I am very impressed with the diligence and professionalism of STOLZ as one of REC's major Contractors that have made our Solar production plant in Singapore a success!

Jan Eklund
Project Manager
REC Singapore

We needed a sales partner that could carry our Energy Savings message to the customer – someone who understood not just dollar value, but the value of lower carbon footprint and truly integrated controls. Armstrong's partnership with STOLZ just made sense.

Jim Laidler
International Sales Manager
S A Armstrong Ltd

STOLZ has proven that there can be excellent customer service and support and have raised the bar and set the standards for premium service in the engineering sector.

Kenji Tanida
Deputy Project Director
Obayashi Corporation

STOLZ promotes a Quality product and seeks to understand the Needs of their Customers – the formula for Success.

Gwee Tong Chew
Senior Production & Maintenance Manager
National Oilwell Varco

We work regularly with STOLZ and I must say dealing with them has been my pleasure. Their professional work attitude and more importantly their positive business ethics gave me the confidence to establish a long-term relationship with them. Congratulations on the win for both EYA2010 and SPBA2010.

Keith Peh
Managing Director
Venture Machinery Movers Pte Ltd

STOLZ has proved to be an innovative solution provider for the engineering sector. We believe that with the existing management and excellent team, they will reach the next level in time to come.

Yuichi Oka
